Hello,

This email confirms that you have provided Anita Thomas consent for Tele-Therapy Services as described below. Should you wish to withdraw consent at any time, please email Anita Thomas at the following address: athomas61@schools.nyc.gov

Consent for Tele-Therapy SP services was provided to Anita Thomas for the student Matthew Gallardo (236963732) from their Parent/Guardian, Noemi Mejia .

The Parent/Guardian was informed that:

- Delivery of face-to-face services will not be possible during a school closure.
- Services will be delivered via secure video conference to their child in their place of residence, or another suitable location, by a provider who will be located at a remote site.
- They have the right to be informed of all parties who will be present at the tele-therapy session.
- Some services my child receives may not be appropriate for delivery via tele-therapy.
- They have the right not to consent to their child's participation in services delivered via tele-therapy.

Important note regarding privacy:

For the privacy of all students and staff, just as in school, parents should not record, share, post or otherwise disseminate audio or video of remote learning or related services sessions. Parents are encouraged to ask their child's teacher or principal if they have any questions about their child's remote learning activities or lessons.

Please do not reply to this email. Contact the above indicated therapist/provider.
